

GROWTH AND RECONCILIATION
To Be Presented to MCC
Fall Sessions 2016

Diversity is important to New York Yearly Meeting. Some people come seeking the inward power and spiritual authenticity they missed elsewhere. Sometimes we fall short of our intentions to include all fully within our blessed community. Individuals and monthly meetings differ on issues of profound importance to them. We remain united in our belief that, as we witness to that of God in everyone and are gathered in intimate communion with the Divine, way opens to revitalize and change our individual and corporate lives.
