Thank you for your letter from January 15 regarding the dangers of hydrofracking. I encourage you to visit Assemblymember Brennan's website ([state.ny.us/mem/James-F-Brennan](http://state.ny.us/mem/James-F-Brennan)) where he expresses his strong views on the subject--see video section/hydrofracking. You can be assured that the Assemblymember will bring those views to the Assembly floor when hydrofracking legislation is considered. We encourage you to continue voicing your own strong opinions on this issue to all your local and statewide representatives. Best, Mary Kay Seery, legislative aide to Assemblymember Brennan
