### **Queries for Committees as they plan their budgets for the next year**

Report from Regina Baird Haag on the Faith for a Fair New York Retreat

Thank you for your financial support that enabled me to attend this event! This was my second retreat; I attended last year as well. The focus of the retreat is to bring faith community leaders "up to speed" about a variety of issues that concern folks at the grass roots level as we unite to advocate for social and economic justice in New York State. The growing network of people of faith with community and labor allies is a partnership undergirded by both Scripture from the First and Second testaments, as well as the testimonies of the Religious Society of Friends.

For me, the most compelling presentation was the "Rise of the Low Wage Economy" as we heard about the struggles and realities from a person who is experiencing them firsthand. I was also inspired by the concluding segment on how we might act to make an impact this year.

I personally am committed to supporting the Moral Mondays events, as I am able. I would also like to share this information widely in our Yearly Meeting. Last year's retreat encouraged me to vote for a local Green Party candidate for the first time in my life, so I am aware of the impact that this information can carry and inspire.

Additionally, Friends might be interested to learn that Sara Niccoli, who is the director of the Labor Religion Coalition, as well as a Friend, is initiating a campaign to run for the State Senate in her home district.

Summary of the Oral Report Given by Sunfire on Jan 30 to the Witness Coordinating Committee

The core of the Earthcare Working Group consists of five Friends who had all in 2014 agreed to be Connector Friends who would visit meetings to help them better implement the **2007** Eco-Spirituality

and Action Minute and Advice 17 and Query 16. We have visited Monthly Meetings, Quarterly Meetings and Quaker Schools. We are now considering offering one-day retreats for Monthly Meetings, as part of the program being offered by the Nurture Committee. We feel we need to work on the design for this retreat before offering it. We are also working to include others in our efforts from the group that has previously expressed interest in Earthcare, and to this end are circulating a questionnaire – but have had some technical difficulties emailing a message about the questionnaire to the Google group that has most of the email addresses of those expressing interest in the group.
