## ***You Already Know the Answers, Friend***

We are Quakers (Religious Society of Friends). We worship in quiet waiting for God to speak to our inner spirit. Through the love in our community and our love of God, we share an experience in the Divine and yet each experience is different.

We have no ordained ministers. Instead, we learn to listen to "the still small voice" within each of us and we learn to honor that of God within others. This may sound like work because there is no minister to provide answers. It is work: work that is rewarding. In seeking the answers for yourself, with the support of a

loving community, you will reap rewards that you could not possibly anticipate as you read this.

We hope that you will visit and learn more about us. Come and learn more about yourself and your Inner Light.

## ***People Quietly Working Miracles***

For over three hundred years, Quakers have been at the fore front of social change. Quakers were among the first to champion Native American rights, abolition of slavery and equal rights for women. The tradition continues in this century.

Quakers helped found and remain active in organizations like American Friends Service Committee, Amnesty International, Womens' International League for Peace and Freedom, and Greenpeace.

Seven Nobel Prize winners were Quakers, two since 1990. A Quaker was the only one in history to win both a Nobel Prize and an Olympic Medal.
